

Marin Management is proud to announce its recent partnership with HMBookstore to develop a new training site for restaurants--Dining Site.

Dining Site is a library of online training courses for the restaurant industry from entry-level to management positions. This site includes quizzes to assure employee comprehension; and it has monitoring and tracking systems to measure each employee's progress and achievements.

Dining Site joins Marin Management's HMBookstore site for training, testing and coaching hotel teams. MMI Dining Site delivers in-depth knowledge into the exciting world of food and beverage.
